

ENHANCED LIMITED PRODUCT WARRANTY SOLARIA PowerXT® MODULES

January 1, 2020

Semper Solaris Construction, Inc.
1805 John Towers Ave.
El Cajon, CA 92020

The Solaria Corporation (“Solaria”) is pleased to offer this Enhanced Limited Product Warranty (“Enhanced Warranty”) to the customers of selected partners.

Effective January 1, 2020 and expiring December 31, 2020, all Solaria solar photovoltaic panels (“Products”) purchased by a customer of Semper Solaris Construction, Inc. (“Semper”), or a successor owner of the Products, at the site of the original installation (“Customers”), will be covered by the enhanced limited warranties set forth below. Except as expressly provided herein, all other terms and conditions of Solaria’s Limited Product Warranty applicable at the time of purchase (“Original Warranty”) shall remain in full force and effect. Unless separately defined herein, all capitalized terms will have the meanings given to them in the Original Warranty.

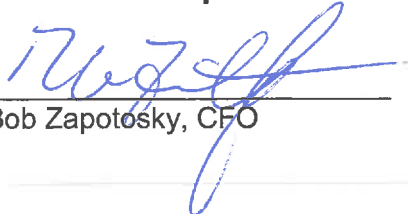

Enhanced Limited Warranties

In addition to, or in lieu of, the limited warranties provided in the Original Warranty, Solaria, at its sole discretion, will provide one of the following warranties to Customers of Semper:

- a. Solaria will provide an additional new or refurbished Product or repair and replace the Product to restore deficient output. Solaria will cover reasonable shipment and labor costs associated with installation, removal or reinstallation of such Product only at preapproved rates.
- b. If repair or replacement of the Product is not possible, Solaria will refund the Customer the original Product purchase price. Any refund may be pro-rated by the number of months from the date of original purchase by the Customer and/or may be calculated based on the difference between actual power output (Product measured under STC) and minimal guaranteed output.

In order to take advantage of the enhanced limited warranties provided herein, Semper and its Customers must be in compliance with all of the terms and conditions set forth in the Original Warranty including, but not limited to, adherence to the Warranty Claim Process set forth in Section 2 and submission and registration of all required installation information through Solaria’s website. Once the registration information has been submitted, Solaria will send an electronic communication to the Customer that their Products have been registered for the enhanced warranty provided herein.
